No. 3323

SUCCESS FOR THE PARTY

REPUBLICANS COME OUT AHEAD

CONGRESS WILL HAVE MAJORITY OF THIRTY—W. R. HEARST ELECTED FROM NEW YORK. JOE CANNON RE-ELECTED.

NEW YORK, Nov. 6.—In the election held Tuesday there were no great land-slides. States and congressional districts went Republican or Democratic, as a rule, according as they are accustomed to go. There have been no great reversals of form.

The Democrats have made some gains. They have reduced the Republican majority in the House from 88 to about 30. They have captured some state legislatures that will give the Democrats some gains in the Senate, though the President will still have a Republican majority to support him.

The Republicans carry New York state by about 12,000 majority, though the Democrats do not yet admit defeat. This is about the nearest reversal of form there is as Gov. Odell carried the state last time by a big majority. Greater New York which last spring elected Low for Mayor, this fall gives Bird S. Coler, the Democratic candidate for Governor about 125,000 majority, but this is overcome by the big majority with which the Republicans came down to the Bronx. The Democrats carried only three of the rural counties of the state.

President Roosevelt's precinct at Oyster Bay gave a majority for Coler. Gov. Odell's plurality in 1900 was 111,126. New York's delegation in congress will be twenty Republicans and seven Democrats as against twenty-two Republicans and twelve Democrats in the last House.

Ohio gave a Republican plurality of 100,000. Congressman Joe Cannon was re-elected from Illinois, and will almost certainly be the Speaker of the House. Pennsylvania elected Samuel W. Pennypacker, Republican Governor, by 155,000, twenty-eight Republican congressmen and four Fusionists who are claimed as Republicans. Republicans gained three congressmen in Nebraska. The Republicans won in Massachusetts, but with reduced majorities.

WASHINGTON, Nov. 5.—The latest returns received up to 10:30 p. m. show that the Republicans (including in this description the Fusionists elected from the Pittsburgh-Allegheny districts in Pennsylvania) will control the next House by a vote of 205 Republicans to 180 Democrats, with one district, the Eighth Tennessee, remaining so much in doubt that the official returns will be needed to decide the result. Two of the Democrats in California are also Union Labor candidates. The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota, where the Republican and Democratic party managers respectively do not concede defeat, but the general result could not be affected even should their claims prove well founded.

In the 57th Congress the Republicans had a majority of 58 in the House.

NEW YORK, Nov. 6.—William Randolph Hearst was elected to Congress.

CAPTAIN GRIFFITH DIES ON HIS SHIP WHILE ON OCEAN

SAN FRANCISCO, November 6.—Captain T. H. Griffith, master of the steel bark Kalulani, died on board the vessel last Saturday when she was at a point 400 miles off Cape Blanco, on the way from Seattle to Honolulu. Stomach trouble was the cause of death. Chief Officer Wallace took charge of the ship and steered for this port, to land the captain's body, arriving yesterday afternoon. The Kalulani will probably resume her voyage today. Captain Griffith was one of the best known and most capable master mariners sailing out of this port, having been on the Coast for more than forty years. For years he commanded the barkentine S. G. Wilder and the bark Albert in the sugar trade, and went to the Kalulani but a few months ago. He was 70 years old and a native of Wales. A few years ago Captain Griffith's son died while on a voyage to Hawaii. The Captain was a Knight Templar. Captain Griffith leaves a widow in San Francisco.

ROBERT WILCOX NOW A LAWYER

ADMITTED TO PRACTICE BY JUDGE GEAR—HIS APPLICATION WAS DRAWN BY HUMPHREYS.

Delegate R. W. Wilcox this morning secured a license to practice law, in the district courts and before circuit judges at Chambers on appeal. His application was drawn up by Judge Humphreys and presented to Judge Gear, setting forth his qualifications to practice in the lower courts. The delegate at once took the oath, and he is now the holder of a certificate entitling him to practice law in the police courts and in circuit court chambers on appeal. His application read as follows, addressed to the presiding judge at chambers:

"The petitioner, R. W. Wilcox, represents to your Honor that petitioner is a resident of Honolulu, Island of Oahu, Territory of Hawaii; that petitioner is of the age of 47 years and has resided in said Territory of Hawaii all of his life, except for about the period of one year, during which time he resided in the state of California; that the petitioner is a citizen of the United States and of the said Territory of Hawaii.

"Petitioner further represents unto your Honor that he is a person of good moral character and that he is, as he verily believes duly qualified to practice law in the district courts of the said Territory and before Circuit Judges at chambers on appeal.

"Wherefore the petitioner prays that he may be licensed to practice law in all the said district courts and before Circuit Judges at chambers on appeal.

"R. W. WILCOX."

The petition was sworn to before Clerk Loucks, and Judge Gear endorsed it with "Let the license be prayed for in the foregoing issue at once."

from the Eleventh Congressional District today by a vote that staggered the oldest politicians of this city. His majority will be about 15,000.

The election districts constituting this Congressional district gave Mr. Shepard last year a majority of 1,820. Normally the district would be Democratic by 6,500.

FALL STYLES.

The latest materials for suitings and skirts: Zibelines, Venetians, Chevrolets, etc., now on sale at Sachs' Dry Goods Co.

HOW OPERATORS LIVE AT FANNING

Among the passengers by the Ventura is J. Pinkerton, who was principal electrician on the cable-ship Anglia, and in establishing the cable station at Fanning Island. With him is his assistant W. E. Hindze.

"The Anglia is now at Suva, Fiji," said Mr. Pinkerton, "discharging a quantity of cable to be kept there for repairs. She is also building cement tanks for the storage of this cable. When this work is completed she will proceed at once to London to load cable for the line between Honolulu and Manila. Suva will be the repair station of the British cable, and the repair ship Iris, a vessel built especially for the purpose, will be stationed there.

"The final splice of the cable, completing the line from Vancouver to Australia was made Friday, October 31, and a message of congratulation to King Edward was the first one sent through. The cable line will not be turned over to the Cable Board representing the government ownership of it until December 1, the constructors controlling the line meanwhile to see that it operates perfectly.

"Fanning Island is not such a dreary place, and when the Cable Board gets things fixed up it will be rather a pleasant place. The climate is good. There is abundant water of fine quality. Steamers call now once in three weeks, bringing fresh meat and provisions. A staff of fifteen will be maintained there as the cable has to be kept going night and day. At present they are living in tents, but a San Francisco firm of contractors has a force of about forty men there now building quarters for the staff. These quarters will include first rate houses, together with community structures such as a billiard room, a club house, tennis courts, cricket fields and all that sort of thing. The buildings for the cable are on the same scale. The instrument room was just completed when we left. There will be a battery room, a storage room, and all other necessary rooms and structures.

"In course of time, no doubt, soil will be imported sufficient to provide lawns and gardens, for there is no soil there now, nothing but guano and coral, and little vegetation grows except coconut trees. George Greig has established a small dairy for his own family. Fish is abundant and living there won't be half bad. The station will be in charge of David Cuthbert, formerly with the Direct United States Cable Company on the west coast of Ireland."

OTTO ISENBERG DEAD TO GUARD ITS SUGAR

SAN FRANCISCO, Nov. 5.—Otto Isenberg, a well-known pioneer planter of the Hawaiian Islands, died suddenly yesterday morning in his room at the Occident Hotel. His death was due to an attack of heart failure and dropsy.

Mr. Isenberg was a native of Germany and had spent thirty years as a planter in Hawaii. He was a brother-in-law of Colonel Sam Parker. The deceased had been traveling through Europe for the last year with his wife and four children and arrived in this city on October 19, intending to sail on the steamship Alameda, which left last Saturday for Honolulu. Owing to his poor health he was compelled to postpone his trip, but sent two of his children ahead on the Alameda, his wife and two youngest children remaining here with him.

MARRIOTT FILES COMPLAINT. SAN FRANCISCO, Nov. 6.—Frederick W. Marriott, editor of the News Letter, who was shot at his home on the night of September 30 last by Thomas H. Williams and Truxton Beale, appeared yesterday before Police Judge Cabaniss and swore to a complaint charging Williams and Beale with assault to murder. The case will come up this morning pursuant to the order of adjournment made at the last calling of the case.

ALABAMA MITCHELL. Alabama Mitchell who runs a saloon at Modillili is charged with selling liquor to a minor. His case was continued by Judge Wilcox until tomorrow. Complaint has been made to the anti-saloon league that Mitchell kept his place open on election day, and the league will present the matter to the grand jury.

ALWAYS READY.

Visit our ready-to-wear department, just opened. Silk dress skirts, new rainy day skirts, Ladies' and Misses' jackets, capes and walking suits. Sachs' Dry Goods Co.

A VIOLENT ATTACK OF CROUP CURED.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist of Filley, Mo., U. S. A. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." "This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists, Benson Smith & Co., general agents."

HYGIENIC UNDERWEAR.

L. B. Kerr & Co. have received a special purchase of Men's summer weight, natural wool underwear. All sizes, and only \$1.25 a garment.

FIRST IN THE FIELD.

Our Hawaiian Souvenir, "Scenic Art Calendar" for 1903 is now ready. Don't wait until the last minute, buy early and mail to your loved ones at home. It makes a beautiful all the year round remembrance. Wall Nichols Co., Ltd.

CHOCOLATES.

Home made chocolates, delicious. Try a box, at the Miller Candy Co.

KINGSTON, (Jamaica), Nov. 4.—A special session of the Legislature convened today in order to give authority to the Government to make loans to the sugar planters supplementary to the Imperial grant, and thus insure the maintenance of the industry pending the abolition of the bounties.

In his opening address Acting Governor Oliver announced a general improvement in the colony's condition during the first half-year, the revenue for that period having increased not less than \$250,000.

This showing is due principally to the increased exports of such products as coffee and fruit the largest quantities of which go to America. The improvement, Governor Oliver said, was so marked that the Government hoped next year to repay the loan of \$100,000 obtained last year from the Imperial Exchequer.

AUSTIN BUTTED IN.

Yesterday afternoon Auditor Austin managed to walk into his office and he spent a few moments there before the policeman on watch found it out. Officer Mulletier, who was on guard, states that he did not know Austin. The auditor said he had come after private papers and left when the officer came after him. Deputy Auditor Meyers was before the grand jury at the time, and G. W. R. King, chief bookkeeper is away.

CORONER'S INQUEST.

The inquest on the body of the Japanese woman found in the house at Pauahi street yesterday afternoon will be held at the police station tomorrow afternoon at 4 o'clock. The chemical analysis of the contents of the stomach has not yet been completed.

TRUST DEED SUSTAINED.

Judge Gear this morning made a ruling allowing the Hawaiian Trust Company to intervene in the matter of the contest of the old will of the late R. R. Holt. The company represents the Aldrich interests, and its motion for intervention was opposed on the ground that Aldrich was incompetent when he made the trust deed under which the company is acting.

LEM-MO.

Lemmo, Long and Cold. 5 cents, at the Miller Candy Co.

MILLINERY.

In our millinery department we have a choice assortment of the newest novelties. An up-to-date hat trimmed to order costs just half of what it would elsewhere. L. B. Kerr & Co., Queen street.

CHRISTMAS PRESENTS.

Now is the proper time to select a little gift for your friends in the States. The Island Curios Store, Fort street in the McInerney Block has a grand variety of suitable articles. Call in and see for yourself.

FRUITS AND VEGETABLES.

Don't forget Camarinos of the California Fruit Market when you want fruit and vegetables. He always has on hand a fresh supply of both California and Island fruits. Telephone Main 378.

Rice & Perkins make a specialty of kodak film developing and printing.

CABLE READY BY CHRISTMAS

TEN CENT CUT IN REFINED SUGAR IN EASTERN MARKETS

NEW YORK, November 5.—

All local sugar refining interests reduced their scheduled prices for refined sugar 10 cents per 100 pounds today. The American Sugar Refining Company and the National Sugar Refining Company, of which latter company B. H. Howell, Son & Company are the sales agents, announced their reductions early in the day and shortly after came a statement that the Arbuckle Brothers had followed the cut, which the others had made. At the office, however, of both the American Company and B. H. Howells, Son & Co., it was stated very positively that the reason for their action lay in the cut which Arbuckle Brothers had made on Monday last. News also came from the West today that the sugar situation at Missouri river points was becoming more tangled than it has been and a drastic cut in prices has taken place.

WRIGHT APPEARS AS A WITNESS

REPORT HAS IT THAT HE WILL GIVE TESTIMONY AGAINST HIS FORMER CHIEF.

The Grand jury is now thoroughly started in its investigation into the Department of Public Works, and all sorts of rumors are current as to the developments that are taking place. One report this morning was to the effect that B. H. Wright's case had taken a turn which indicated that he might not have to face a trial jury.

It is said that the ex-chief clerk of the department of Public Works may turn out to be a strong witness against James H. Boyd, superintendent. Wright has never made a statement explaining the charges against him, until he made it to the Grand jury, excepting the first remark he made when taken into custody, to the effect that if he wanted to talk he could explain matters and show up "some people" and would do so if he wasn't protected. It is now said by some that Wright will be a witness for the government in other cases.

In addition to B. H. Wright, Henry E. Cooper was called to attend the Grand jury this morning. Manuel Cook, book keeper of the Department of Public Works has also subpoenaed. The jury began work at 9:30 a. m., and spent a busy morning with the various witnesses.

B. H. Wright was allowed considerable freedom about the building and he appeared to be in most cheerful mood. He remarked that he would be "down town" after a while. No inkling of what he had to tell the Grand Jury could be obtained, but there were reports that he has taken the attitude that heretofore he has been protecting Boyd, but will not do so any longer.

The relations between Boyd and his former chief clerk are apparently somewhat strained. The superintendent did not visit his former chief clerk when he returned from San Francisco, though the two were quite thick before that, and when both appeared in court together at the opening of the present term of court, it was observed that they did not show much cordiality. It is the expectation of many who have watched the course of events that Wright will be a witness for the government, rather than a defendant in the coming trials.

The report of the Grand jury when it comes will undoubtedly be the largest as far as indictments are concerned, that was ever made here.

ROYAL BAKING POWDER CO., INC., NEW YORK.

MANAGER FOR HONOLULU ARRIVES

CABLE REPAIR STEAMER MAY BE LOCATED AT HONOLULU—SILVERTON WAS FOUR DAYS AHEAD AT LAST ACCOUNTS.

The resident superintendent of the American Cable Company for Honolulu was a passenger on the Sonoma this morning and promises the cable for Christmas.

J. D. Gaines comes, with his wife, from the extreme of one climate to another in the pursuit of his profession. His last station was at Canso, Nova Scotia, a small fishing settlement where the cable colony, amounting to some sixty or seventy of the staff, with their wives and families formed the bulk of the population. When Mr. Gaines left Canso for Honolulu, land and water was in the grip of the ice king and the first view of Honolulu with its verdant vales and blue skies above was like the entrance into another existence.

Mr. Gaines' official quarters will be in the Young Building to which the shore line runs from the beach. The delicate recorders and transmitters are coming down on the Silverton and will be set up while the shore connection is being effected. The Silverton with the cable aboard when last heard from at San Francisco was four days ahead of time and it is confidently expected that messages will be sent from here by Christmas.

At San Francisco the work of laying the pipes and pulling the cable through from the shore to the Market street office, was started last Monday week and will be completed this week. Mr. Harrington who is in charge of similar local construction has nearly completed his work and will leave for San Francisco on the China. The present staff in Honolulu, until the Guam and Manila connections are made, will probably not exceed three and will be colleagues of Mr. Gaines at Nova Scotia. They will arrive shortly.

Mr. Gaines is an American citizen, the only American employed in a supervisory situation with the cable company, all the others being Scotch or English. His selection for this post was influenced by his citizenship being that of the country, American.

"My instructions have not arrived with me," said Mr. Gaines this morning "I left in a great hurry and I am unable to talk rates. The cable will be here on time and I promise you that we are not wasting a moment. There will be a cable repair tank here with extra cable for breaks. I cannot say whether the cable repair ship will come here or to Guam. It would of course be an excellent thing for the town as it carries a full crew of officers and men ready for sea at a moment's notice. They will all have their families living ashore here and all their salaries will be spent in the town.

"Her location will depend to a large extent on the expense of harbor dues. Guam would be as handy for possible breaks as Honolulu and the ship will stay where the expense is least. I should imagine that it would pay the local government to mitigate the expense here as the cable will be crew would bring quite a little money into the city."
